## Purchase Order Objectives:

- Understand the capabilities of Purchase Order.
- Learn the steps for setting up the module and how it integrates with the other modules.
- Learn how to create purchase orders including master and repeating orders, as well as how to indicate goods are to be drop shipped to a customer.
- Learn how to generate a purchase order based on sales orders entered in Sales Order.
- Learn how to receive items as well as process invoices against a purchase order.
- Learn how to use the reports and inquiry options, as well as how to close the period in Purchase Order.
