

ADVANCED EDITION

# SD&A

*Sage Data & Analytics*

*Level up your Business Intelligence with this powerful toolkit for Sage 100 and Sage 300 users*

# Sage Data & Analytics Advanced Edition

SD&A is a powerful BI toolkit for Sage 100 and Sage 300 users that delivers actionable business intelligence to drive increased revenues, cost savings, and competitive advantage.

## **Business Intelligence, tailored for you...**

SD&A gives you a full suite of pre-packaged, customizable and easy-to-use reports and data visualizations, right out of the box. No programming or coding required!

## **...based on the best technology**

SD&A is hosted and managed on Microsoft Azure, supported with in-product maintenance and automated upgrades, and backed by our service provider's data security program. Cloud-hosted and browser-based, SD&A is accessible on mobile, tablet or desktop.

## **...now and for the future**

Straight away, SD&A will save the average Sage 100 and Sage 300 user more time on report preparation. You'll get a 360-degree view of your business today, and a decision-making infrastructure that will scale with your business as it evolves.

# SD&A Advanced features

## **BI in-a-box**

Visualize, interpret and action data from your Sage ERP with SD&A's extensive range of BI resources: reports, dashboards, statements, analytics, and more. They're all available to browse in this eBook.

## **Automated data management**

Quickly gather data from your Sage ERP – including all your customizations – as well as all your other data sources: from your CRM to legacy databases, from Excel spreadsheets to your online analytics...

## **SaaS flexibility**

With more modules comes more data, but pay only for the data warehousing you need with up to 55GB of online storage for the portions of your sales, financial, purchasing and inventory ERP data to support your reporting and broader insights. Enjoy full functionality without the headaches of hardware, resourcing, or complex configurations.

# SD&A Advanced benefits

## **Instant insight**

Interactive sales dashboards, graphical cashflow analysis, detailed and trusted P&L reports... all of this and more is available right out of the box.

## **Access on-the-go**

Enjoy mobile access through a responsive web application, optimized for desktop and mobile devices.

## **Time savings**

With SD&A hosted and managed in the cloud (via the Microsoft Azure platform), maintenance and upgrades are fully automated, allowing you to focus on day-to-day business rather than infrastructure management or version upgrades.

# Level up your Business Intelligence with SD&A Advanced Edition

With SD&A Advanced, you'll view your entire organization's reports and data from a single platform. Right out of the box you'll get a baseline of your key reports – finance, sales, and operations – as well as the ability to enhance your insight by adding data sources and customizations. All with the click of a mouse, and with a robust layer of data governance that makes sure all information you are handling is secure and accurate – across all sources, systems, and staff.

If you've experienced some of what business intelligence can bring to your organization but have additional technical and operational needs that aren't being met, or if you're simply excited at the possibilities of going further – and the time and cost savings a robust platform can bring – SD&A Advanced Edition is for you.

Skip to Page 8 to browse some of the many BI resources that are included in SD&A. These standardized, best-practice reports, dashboards, analytics will level up your BI journey, and can also be customized with help from your local Sage partner.

--	--

# Accounts Payable Manager Dashboard

**This dashboard includes the following resources**

- Open transactions card
- Overdue payables by age
- Top 10 overdue AP
- Top 10 suppliers with largest overdue AP
- Current payables by age
- Top 10 current AP
- Top 10 suppliers with largest AP balance not paid
- Average days to pay
- Top open accounts payable
- Top 15 overdue suppliers

**Key metrics to get you started include:**

- Avg Days overdue
- Avg days to pay
- Avg amount / invoice

# Accounts Receivable Manager Dashboard

## Dashboard resources

- Open AR items card
- Overdue receivables by age
- Current receivables by age
- Performance MTD card
- Top 10 overdue AR
- Top 10 customers by overdue AR
- Top 10 current AR
- Top 10 customers by AR not past due
- Collection Effectiveness analysis over time
- Average days to pay
- Collection Effectiveness Index (CEI) vs. Days Sales Outstanding (DSO)
- DSO vs Average Days Delinquent (ADD)

## Key metrics to get you started include:

- Avg Days overdue
- Avg days to pay
- Collection Effectiveness (CEI)
- Days Sales Outstanding (DSO)
- Best Possible DSO (BDSO)
- Average Days Delinquent
- Average Days Delinquent (ADD)

# Chief Financial Officer Dashboard

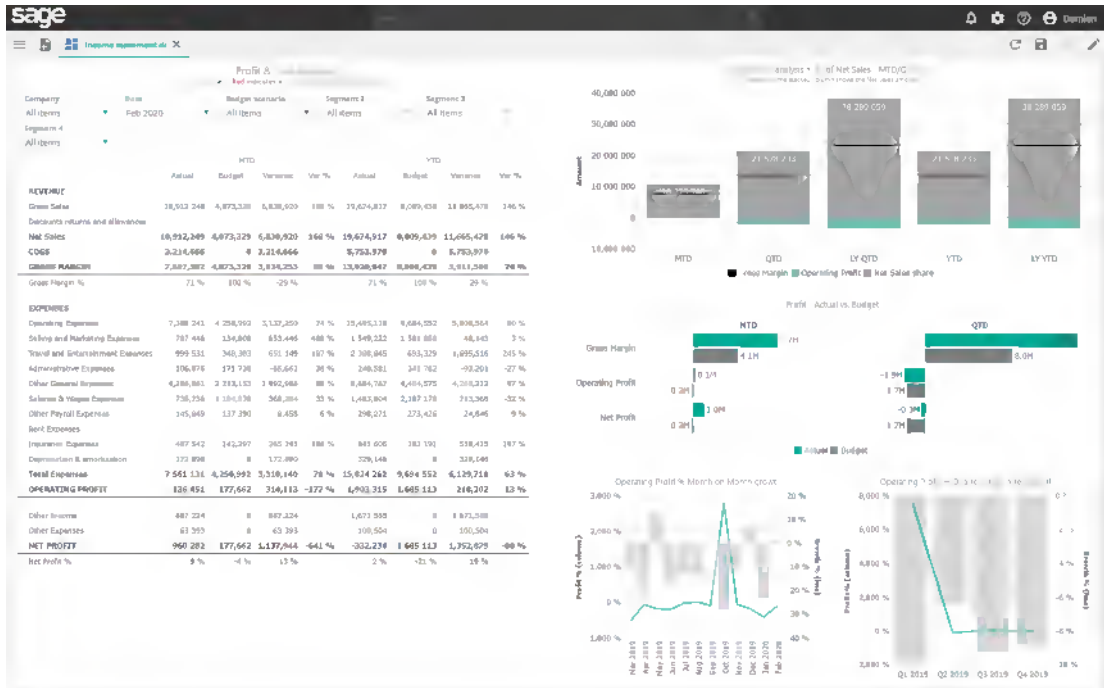

This dashboard includes the following resources:

Key metrics to get you started include:

- Performance card; Activity card
- Profitability card
- Liquidity card; Leverage card
- Gross Margin over time
- AR gauge, AP gauge
- Liquidity ratios over time
- Operating Profit over time
- Cash to Cash Cycle over time
- Profitability ratios over time
- Leverage ratios over time
- Gross margin
- Operating Profit; OP%
- Cash to Cash Cycle
- Return on Assets
- Return on Equity
- Working Capital
- Working Capital Ratio
- Quick Ratio; Debt Ratio
- Debt to Equity Ratio
- Long term Debt to Equity Ratio
- DSO, DIO, DPO)

# Income Statement Dashboard

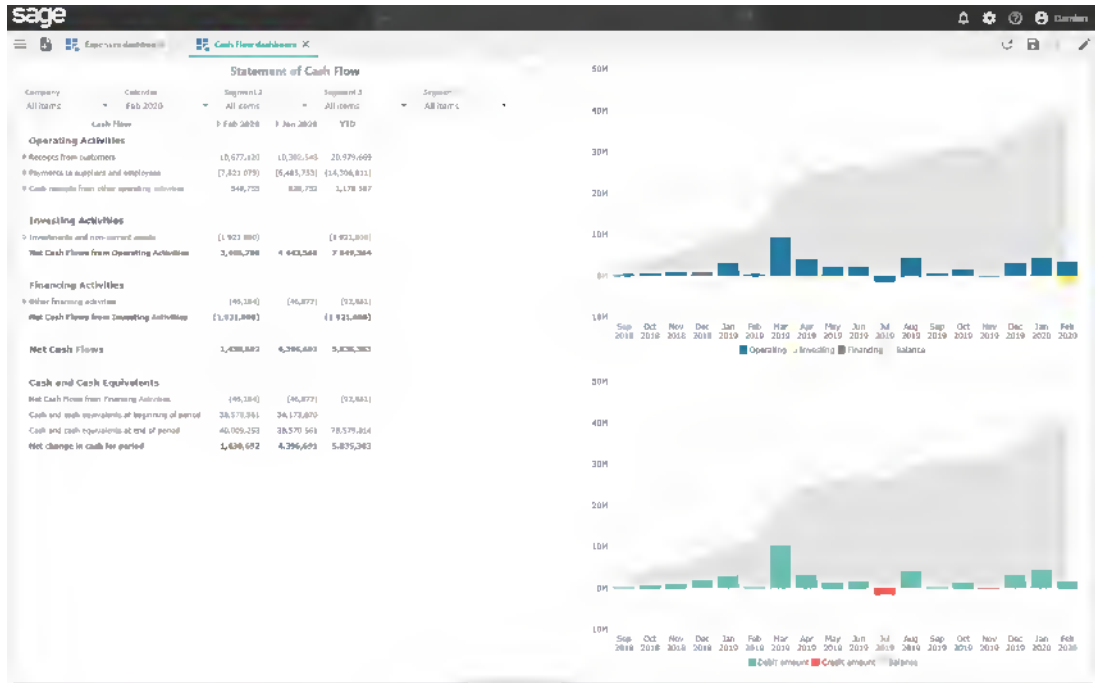

This dashboard includes the following resources:

- Income Statement
- Profit share analysis as % of Net Sales
- Profit – Actual vs. Budget
- Operating Profit % Month on Month growth
- Operating Profit % Quarter on Quarter growth

Key metrics to get you started include:

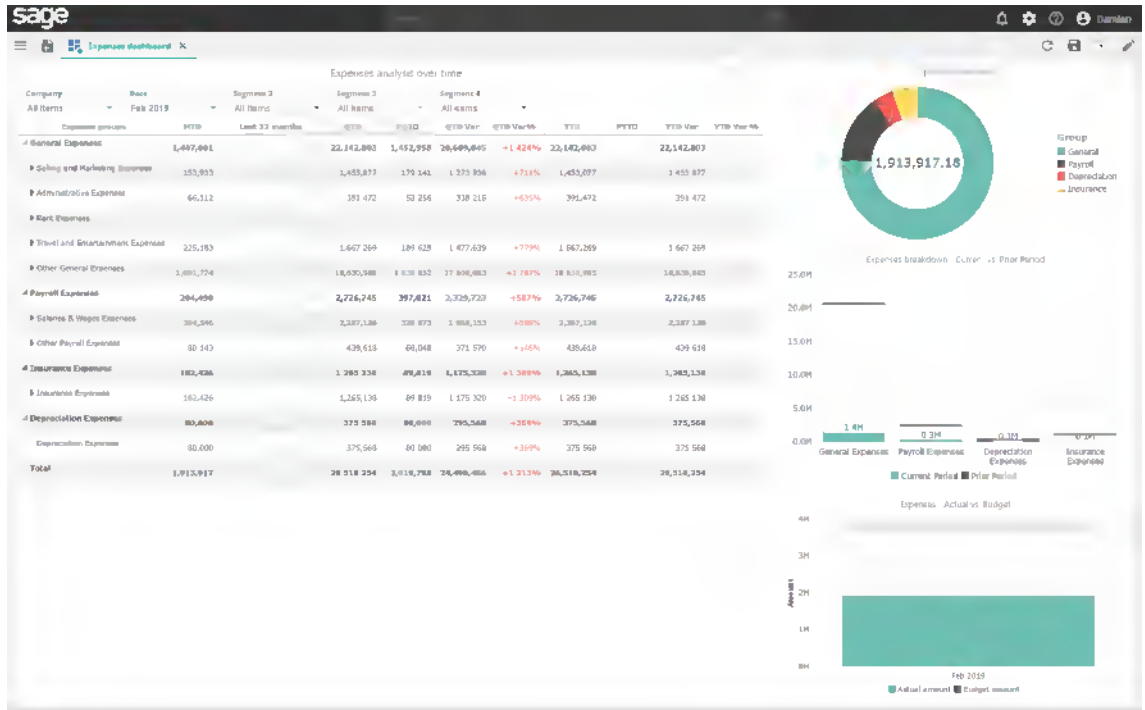

- Gross margin
- Operating Profit
- Operating Profit %
- EBITDA; EBITDA %
- EBIT; Net Profit
- Net Profit %
- Net Sales share
- Operating Profit MoM Growth
- Operating Profit QoQ growth

# Cash Flow Dashboard

The Cash Flow dashboard is the main dashboard for monitoring all your operational, investing and financing cash flows. SD&A automatically classifies your chart of accounts into account types and cash flow categories, so you don't have to build custom reports. Cash flows can be analyzed by increase/decrease, categories, and dimensions over time.

# Expenses Analysis Dashboard

Analyze your businesses' expenses by category over time and at a glance. Determine the biggest expenses and find outliers that represent opportunities to optimize your costs.

SD&A automatically categorizes your expense accounts into its own account categories, and lets you expand and drill through to see the underlying expense transactions.

# Statements and Reports

## **Statement of Profit or Loss (Income Statement)**

As pictured here.

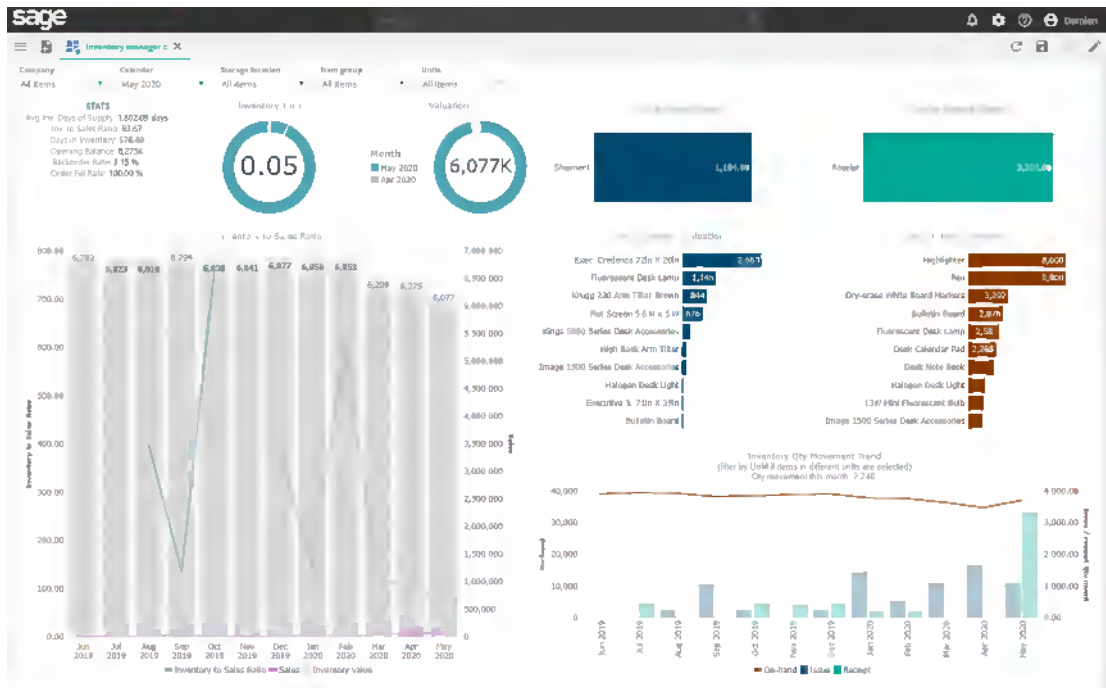

## **Statement of Financial Position (Balance Sheet)**

Also include, this report returns opening balance, net movement, and closing balance the selected period.

## **Trial Balance**

Also included, the Trial Balance report returns opening and closing balances for a selected period by account.

# Inventory Manager Dashboard

This dashboard includes the following resources:

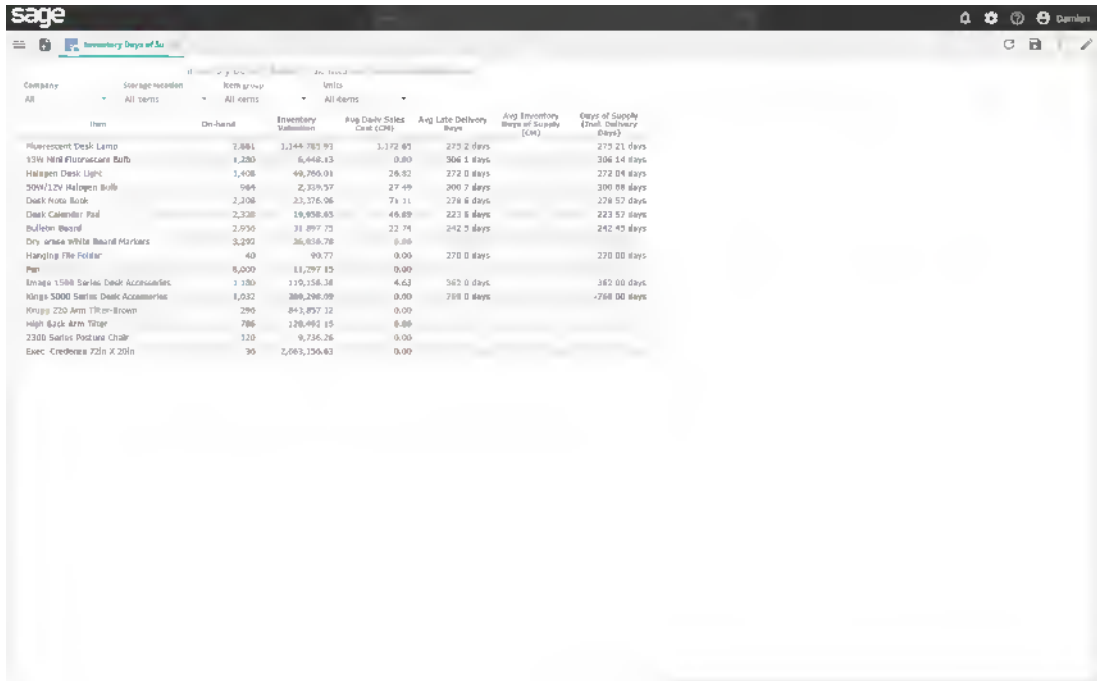

Key metrics to get you started include:

- STATS card
- Inventory Turn
- Valuation
- Qty by Issue Status
- Qty by Receipt Status
- Inventory to Sales Ratio
- Top 10 Items - Valuation
- Top 10 Items – On-hand
- Inventory Qty Movement Trend
- Avg Inv. Days of Supply
- Inv. To Sales Ratio
- Days in inventory
- Opening Balance
- Backorder Ratio
- Order Fill Rate
- Inventory Turn
- Avg Daily Sales Cost
- Avg Inventory Valuation
